Zinc Material for Roofing

Zinc Material for Roofing

At a glance, the metal roofing industry can seem a bit overwhelming. There is such a wide variety of types and styles of products out there, how do you determine what will work best – both functionally and aesthetically – for your home? Are there products designed specifically for residential use? Which ones? How are these different from commercial or agricultural products? Unfortunately, there are many examples out there of metal roofing products being used inappropriately, on projects for which they were never intended to be used.

Our goal, as a leading residential metal roofing Dealer/Contractor, is to help make sure this misuse happens as rarely as possible. The following guide is intended to help you select the perfect metal roof for your home by arming you with information on the base metals, product types, product profiles, installation issues and overall features and benefits of today's metal roofing systems.

Adil Saeed Al-Harbi Est. was established in Saudi Arabia in year 2008. It started operating as a retail entity whereby its initial activities included trading building and construction material in the Lebanese Market. Despite significant challenges and competition in the operating marketplace, the Company underpinned significant growth in its sales, profits and margins and achieved record levels. The Company expanded its business model and introduced a new product range of steel and ductile iron pipelines, GRP and HDPE in addition to fittings, valves and related accessories

Sand and Soil

Sand and Soil

Sand and soil is to consistently supply our customers a quality of service and product that meets or exceeds their needs and expectations. This we believe is realistic and achievable as we have adopted the approach of “doing the job right every time and on time”. Thus, we aim to provide reliable Technical and Sales support services, with a focus on the production and delivery of quality quarry and landscape products to our Customers. Along with this, our objective is to use the Company’s Quality Management System to assist in achieving and exceeding our Company’s business goals and objectives. Commitment to our policy and objectives is maintained by conducting training of all staff in regard to this policy and its subsequent Quality Manual, conducting reviews, internal audits, and other training and activities such as correction or prevention of nonconformities.

Manpower Services and Supply

The company provides Manpower Services and Industrial Services which includes Engineers, Technicians and many more categories. We have well qualified and professional Engineers and Technicians from Korean, Pakistan, SriLanka, Indian, Bangladesh and Nepal.

Our Engineers and Technicians were selected through qualified recruiters, and were hired for company. Our company Engineers & Technicians (300 + Personnel's) were recurrently servicing some of the valuable customers in Jeddah, Rabigh, Yanbu and Jizan.

Our main motive is always providing good services to the company, and also providing services on long-term basis with good quality.

We supply manpower with a competitive price prevailing in the current market of Manpower Suppliers. The price catalog will be attached with the quotation. The company can arrange all the requirements for the manpower services which includes preparation of ID Cards, Vehicle Stickers and Gate Passes for the equipment's and personnel. (if provided with the required documents).

Our company can arrange Food and Accommodation facilities for the manpower personnel with additional charges with the quoted price.

QUALITY:

The highest quality standards must be established and maintained in everything we do and throughout every aspect of our business. The company recognizes that the maintenance and improvement of quality standards is the key to our success. The Quality Management system is monitored by the quality Analysis department, which directly reports to the Managing Director.

- a. We must listen and respond to our customers needs and ensure high service standards are implemented.
- b. We aim to recruit high quality personnel.

SAFETY & HEALTH:

Safety is a top priority at Gulf Column and we continue to develop new ways to sharpen our focus in this area. Weekly we are distributing safety bulletins to our employees. Each jobsite receives a newsletter featuring guidelines, tips and training materials.

- a. We promote the occupational health and safety to all its employees. Comply with the requirements of the Health & Safety at work. Policy Objectives.
- b. We ensure the design, manufacture and instructions to users of company equipment and products result in safe operation and handling.
- c. We provide such information, instruction interest in health and safety matters applicable to the company's activities, in particular by consulting and involving employees or their representatives wherever possible.

Transportation

The Saudi transportation market is considered as one of the most important markets in the gulf region as well as the Arab world for its large area and the high rate trade exchange among the region of the kingdom achieving high growth in the recent years which encourage the Faisal Saeed Al-Harbi Group to join this market gradually and in an organized way to meet a part of the market's needs.

Besides, the public fare market has witnessed a big growth in the kingdom focusing on the main cities such as Riyadh and Jeddah, for that reason Faisal Saeed Al-Harbi Group has purchased Low beds oil tankers and water tankers.
